virtue, never for their jewellery, if they wore any. My asking from you, your jewellery has also a wider significance. Several sisters have told me that they feel all the better for getting rid of their jewels. I have called this an act of merit in more ways than one. No man or woman is entitled to the possession of wealth, unless he or she has given a fair share of it to the poor and the helpless. It is a social and religious obligation and has been called a sacrifice by the Bhagavad Gita. He who does not offer this sacrifice has been called a thief. The

Gita has enumerated many forms of sacrifice, but what greater sacrifice can there be than to serve the poor and the needy? For us, today, there can be no sacrifice higher than to forget the distinctions of high and low and to realize the equality of all men. I also wish to bring home to the women of India that real ornamentation lies not in loading the body with metal and stone, but in purifying the heart and developing the beauty of soul.

1. Read the following passage carefully and answer the questions that follow :

Early rising leads to health and happiness. The man who rises late, can have little rest in the course of the day. Anyone who lies in bed late is compelled to work till a late hour in the evening. He has to go without the evening exercise which is so necessary for his health. In spite of all his efforts his work will not

produce as good results as that of the early riser. The reason for this is that he cannot take advantage of the refreshing hours of the morning. Some people say that the quiet hour of midnight is the best time for working. Several great thinkers say that they can write best only when they burn the midnight oil. Yet it is true to say that few men have a clear brain at midnight when the body needs rest and sleep. Those who work at that time soon ruin their health. Bad health must, in the long run, have a bad effect on the quality of their work.
